

**Harold F.
Thompson, RA**

**Office Manager -
Nashville**

Harold F. Thompson is a Registered Architect and President/Principal Architect of Thompson Architectural Group, PC. With more than 25 years of architectural design and project management experience, Harold is the creative and technical backbone of the firm. His analytical approach to design guides the odyssey of each project from abstraction to the realm of realism. Under his leadership and continued involvement, a multi-talented design team takes the vision from concept to implementation.

Mr. Thompson design philosophy represents his conviction that architecture should be holistic and should express positive values and create an environment that stimulates positive action by the individual. Following a time-tested and proven methodology for design and program development, Harold collects, synthesizes, analyzes and reformats data related to the client's program to determine what is best for the client.
